PROFILE

Full Stack Web Developer recently graduated from OFPPT Tangier (Specialized Technician in Digital Development). Passionate about software architecture and building modern web applications, I have designed and deployed complex platforms (multi-tenant SaaS, tourism platforms) using React, Laravel, and MySQL. Detail-oriented and results-driven, I am actively seeking a junior or permanent full-time position in Tangier to contribute to ambitious projects.

EDUCATION

Specialized Technician Diploma in Digital Development (Full Stack Web Option)

ISMONTIC - OFPPT - Tangier

Duration : 2024 - 2026

Status: Graduated (July 2026)

High School Diploma (Baccalaureate) in Life and Earth Sciences (SVT)

Abi Bakr Errazi High School - Tangier

Graduated : June 2024

LANGUAGES

- Arabic: Native
- English: Advanced / Fluent
- French: Intermediate / Technical

DEVELOPMENT EXPERIENCE

MAJOR PROJECTS

 - Relational database modeling and role management.
 - Showcase: <https://postresa.vercel.app/>

PROFESSIONAL EXPERIENCE

Full Stack Web Developer (Intern)

- Hercules Park (STE IJAD SERVICE SARL AU) | Tangier | April 2026 - May 2026
 - "Hercules Core" Project: Designed and developed a centralized SaaS platform for the operational management and security of a leisure park (20+ activities).
 - Emergency Management: Implemented a real-time SOS alert system featuring a safety countdown and created a "Crisis Room" (instant messaging).
 - Monitoring & UX: Built dynamic dashboards with responsive, real-time tracking of zone capacities (Dark Mode, Mobile-first layout).
 - Technical Environment: Laravel 11 (REST APIs), React 19, Tailwind CSS v4, MySQL.
